

# Nonexplosiveoilfield Products

*Global Sales & Service*

## Employment Opportunity

**Product Engineer** - Leading role in building, evaluating and qualifying high-tech oil industry power tools.

**Employment:** Full Time

**Location:** NeoProducts, 1201 Dealers Avenue, Harahan, LA 70123

## **Engineering Position**

NeoProducts is searching for an Engineer or experienced Sr. Technician skilled in or willing to develop skills in multiple tech areas involving;

- Hi-Tech Vacuum Systems
- Hydraulics
- Electronic PCBs
- Mechanical Systems
- Manufacturing Process Controls
- Manufacturing Process Traceability

Candidates for employment must be skillful using hand tools and have a practical understanding of mechanical systems. Training of job specific skills and tasks will be offered as needed and take place while on the job.

## **Basic Job Activities**

- Oversee, maintain and operate a high-tech vacuum system to manufacture flasks that thermally insulate electronic circuit boards,
- Perform high temperature qualification testing of electronic circuit boards,
- Oversee and build electro-hydraulic power tools,
- Evaluate the performance of power tools and qualify them for critical service, and
- Create and maintain a product traceability system.
